RECEIVED

JUL 13 1999

FCC MAIL BRANCH

To: Chief, Allocations Branch

PETITION FOR RULE MAKING

Foxfire Communications, Inc. (Foxfire), licensee of FM broadcast station KJFM (FM) Louisiana, MO, seeks the substitution of channel 271C3 for channel 271A and modification of the license of KJFM to specify operation on the up-graded channel.

Foxfire also seeks to substitute channel 265C3 for channel 272C3 and modification of the license of station KBXB-Canton, MO to specify operation on the equivalent channel, to allow for the up-grade of KJFM.

In support of this proposal Foxfire states as follows:

This proposal will bring the first wide area service station to Louisiana, MO and; this proposal will eliminate a short spacing which exists between the transmitter site of station KBXB-Canton, MO and station WRMJ (FM)-Aledo, ILL and therefore, is in the public interest.

Should this proposal be adopted by the Commission, Foxfire will promptly file form 301, and provide any other information needed to obtain a construction permit and, upon receiving said construction permit, will promptly construct said improved facility.

Foxfire has been in communication with Bick Broadcasting, licensee of station KBXB-Canton seeking co-operation for this proposal. A letter of support from James E. Janes, President of Bick Broadcasting is included with this petition.

This instant proposal is to modify the table of assignments as follows:

Community -----	Present -----	Proposed -----
Canton, MD	272C3	265C3
Louisiana, MD	271A	271C3

Channel 271C3 can be substituted for channel 271A with a site restriction of 21.6 kilometers, west, southwest of the present KJFM transmitter site providing full spacing to WVEM (FM) Springfield, IL, Channel 270B. A transmitter site reference with Latitude 39 21 57 and Longitude of 91 16 30 provides an example of an "area of opportunity" for 271C3 to operate serving Louisiana, MD.

Channel 265C3 can be substituted for 272C3 at the present transmitter site of station KBXB-Canton, MD with no other alterations to the table of assignments.

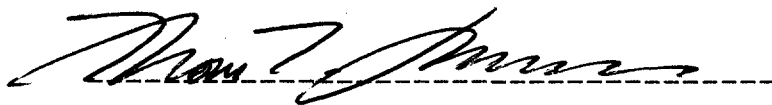

As part of this petition, attached are two channel searches in support of same secured through the facilities of Dataworld. The first, utilizing the geogeographic co-ordinates of station KJFM, which points out the need for the site restriction, mentioned earlier, and the second search utilizes the geographic co-ordinates of station KBXB which concludes that channel 265C3 can be dropped in at the present KBXB transmitter site.

CONCLUSION

Foxfire re-states, that should it be determined that the public interest would be served by adopting the proposal in this petition, Foxfire will promptly submit to the Commission the technical information required of an applicant for channel 271C3. In addition, prior to the commencement of operation on channel 271C3, Foxfire will submit the data required of an applicant for modification of its present license.

FOR THESE REASONS, it is respectfully requested that the Commission issue an Order pursuant to this petition, specifying that the outstanding license of station KJFM be modified for operation on channel 271C3 in substitution for channel 271A and that the license of KBXB be modified to specify operation on channel 265C3 in substitution for channel 272C3.

Respectfully submitted:

Thom T. Sanders
President/General Manager
Foxfire Communications Inc. (Petitioner)

VERIFICATION

I hereby certify that the information contained in this Petition is true and correct to the best of my knowledge and belief.

Tom Sanders
KJFM
Louisiana, MO

Dear Tom:

Please allow this letter to serve as a statement of agreement with the rule-making proposal currently being discussed for KJFM and KBXB.

A channel change is not something which I take lightly, however, the trade off in this case seems to be a good one for KJFM, KBXB and the public.

I encourage you to file your petition with the FCC as soon as possible. If the Commission sees fit to grant the proposal I will comment favorably. If the proposal is granted KBXB will be able to eventually fully implement to C3 status at the present transmitter site without the use of a directional antenna. Bick Broadcasting is willing to promptly file for permission to move to the new channel and assume full financial responsibility for the costs of the changes to KBXB.

WRMJ-Aledo may also benefit from this change, which should also be in the public interest.

Please feel free to share this letter with those you feel appropriate.

Should you or others seek further conversation on this subject, please give me a call at 314/221-3450.

Sincerely

James E. Janes (Bud)
President
Bick Broadcasting Co.
Licensee KBXB-Canton, MO
